Patient information

Before you arrive at the clinic

- Remember to have your referral form with you or send a copy to us before your appointment. If you don't have your referral form, we may not be able to perform your examination on the day.
- Please arrive 10 minutes before check your appointment so we have plenty of time to get you ready for your examination.
- It is not possible to bring family members or friends into the scan room with you. Therefore, if you have young children, you must bring someone to supervise them during this time.

Payment information

- All monies owed for the examination you receive must be settled on the day, prior to you leaving our clinic.

What to do before your examination

- Do not drink caffeinated drinks (e.g. Coffee) or use Viagra/Cialis within 12 hours before your scan.
- Let our clinical staff know if you could be pregnant.
- The use of phones and cameras is not permitted in our clinical rooms.

- Once your examination is complete, a cardiologist or radiologist will report their findings directly to the medical professional who referred you. If you would like a copy of your report sent to another medical professional, please let us know.

Going home

- You may need to bring someone to drive you home or arrange alternative transport as it may not be safe for you to drive for at least 20 minutes after your procedure.
